Major Research Work/Projects

First Semester Project (Tic-Tac-Toe Game) | Programming Fundamentals

- Collaborated to build a console-based, two-player terminal game using C language with win/tie detection and input validation.
- Applied arrays, functions, conditionals, and loops.

Second Semester Project (Hospital Management System) | Object-Oriented Programming

- Collaborated in a team of 3 to design, develop, and test a Hospital Management System.
- Implemented patient and doctor management, appointment scheduling, and billing features.
- Developed room allocation and emergency patient prioritization with file-based data storage.

Research Paper (Effects of IPV on Young Adults) | Fundamentals of Sociology

- Co-authored a group research paper examining how early exposure to IPV shapes gender perception and future relationship views.
 - Conducted qualitative interviews with 6 participants and analyzed thematic patterns.
-

Interests and Extracurricular Activities

Team NST (NEDUET), *Member of Coding and Software Domain*

Aug 2025 – Present

- Learning software development and problem-solving skills while preparing for future coding competitions.

IMechE (NEDUET Student Chapter), *Member of Event Management Domain*

Aug 2025 – May 2026

- Assisting in organizing engineering events, workshops, and guest sessions with a focus on on-ground execution.

Aqidat Homes -A Project of Elohim Home Trust, *Volunteer Coordinator*

June 2024 –July 2024

- Completed a transformative 6-week social internship under IBA's Community Development program, dedicated to enhancing the lives of elderly residents.
 - Designed and facilitated therapeutical activities including music therapy, painting, gardening, and storytelling, fostering joy and emotional comfort.
-

Skills

C/ C++ Language (Advanced), Python (Intermediate), Canva (Basic), Data Analytics (Basic)

Certifications

• “Canva Masterclass”, via Udemy	June 2025
• “Data Analytics Certification”, Google via Coursera	June 2025 – July 2025
• “Python for Beginners”, via Udemy	June 2025
• “Advanced Data Analytics Certification”, Google via Coursera	July 2025
• “AI Essentials”, Google via Coursera	August 2025
• “People Management Essentials”, Google via Coursera	June 2026
