Education

NED University of Engineering and Technology, CSIT **2025-2029**
- Bachelors in Computer Science and Information Technology (in progress)

Inter- Pre-Engineering — Sir Syed Govt. Girls College — **2023-2024**
Matric- Computer Science — Sir Syed Children's Academy — **2021-2022**

Major Research Work/Projects

First Semester Project (Tic-Tac-Toe Game) | Programming Fundamentals
- Collaborated to build a console-based, two-player terminal game using C language with win/tie detection and input validation.
- Applied arrays, functions, conditionals, and loops.

Second Semester Project (Hospital Management System) | Object-Oriented Programming
- Collaborated in a team of 3 to design, develop, and test a Hospital Management System.
- Implemented patient and doctor management, appointment scheduling, and billing features.
- Developed room allocation and emergency patient prioritization with file-based data storage.

Experience

FlyRank, ***AI Fluency Intern*** **July 2026 – Aug 2026**
- Applied AI tools and prompt engineering techniques to complete practical tasks, improving my ability to use AI effectively.
- Explored AI platforms, including Claude Projects, to develop AI-assisted workflows and strengthen practical AI skills.
- Designed and developed a personal portfolio website to showcase my projects, skills, and professional achievements.

Interests and Extracurricular Activities

Team NST (NEDUET), ***Member of Coding and Software Domain*** **Aug 2025 – May 2026**
- Learning software development and problem-solving skills while preparing for future coding competitions.

IMechE (NEDUET Student Chapter), ***Member of Event Management Domain*** **Aug 2025 – May 2026**
- Assisting in organizing engineering events, workshops, and guest sessions with a focus on on-ground execution.

Aqidat Homes -A Project of Elohim Home Trust, ***Volunteer Coordinator*** **June 2024 –July 2024**
- Completed a transformative 6-week social internship dedicated to enhancing the lives of elderly residents.
- Designed and facilitated therapeutical activities including music therapy, painting, gardening, and storytelling, fostering joy and emotional comfort.

Skills

C/ C++ Language (Advanced), Python (Intermediate), Canva (Basic), Data Analytics (Basic)

Certifications

- **"Canva Masterclass"**, via Udemy **June 2025**
- **"Data Analytics Certification"**, Google via Coursera **June 2025 – July 2025**
- **"Python for Beginners"**, via Udemy **June 2025**
- **"Advanced Data Analytics Certification"**, Google via Coursera **July 2025**
- **"AI Essentials"**, Google via Coursera **August 2025**
- **"People Management Essentials"**, Google via Coursera **June 2026**
